

Introduction to Plotting with Python

25.03.2025, Benedikt Wimmer

Prerequisites

- Install Python 3.12
- Install VSCode
 - Python extension
 - Jupyter extension
 - Optionally set up Github Copilot (see AI-tools)
- For Windows users:
 - Install git (git-scm.org) with Git Bash

AI Tools

- ChatGPT
- Claude
- Grok
- Github Copilot

All of these are free for limited usage.

Repository

Download or Clone the repository from:

- github.com/benediktbwimmer/viz-lecture

Follow the instructions in the README to run the stage1 jupyter notebook.
